Identifying Sounds

Ask your child to draw a circle around the letters that spell each of the following sounds and pronounce each word that contains it: the /f/ sound, the /z/ sound, and the /zh/ sound. Ask your child to circle double consonants and silent letters. Dictate the list of words in this unit to your child and have him or her write them. As he or she writes, have him or her explain which letters in the word produce the targeted sounds.
